Applying LAN Hot Fix 04 for Sage SalesLogix Version 7.5.2

This hot fix addresses the following issues:

Defect	Description
1-72658	Unable to add\edit groups in Group Manager if the Lookup results are active.
1-72659	Unable to create a group using the "Does ... contain data" operator on a date field.
1-73231	Using a group based on a date\time field to mail merge does not produce the same result as just viewing the group in SLX.
1-73300	Email attachments added via SendSLX are not saved to the attachment tab of an opportunity or ticket.
1-73382	The Item History dialog takes 5-10 seconds to load on Windows 7 Professional 32-bit version.
1-74341	An error occurs when performing a Mail Merge with a group that includes Activity.StartDate: "No value given for one or more required parameters".

This hot fix requires version 7.5.2. Do not install this hot fix on any other Sage SalesLogix version. Contact your support representative or go to <http://support.saleslogix.com> to obtain the hot fix.

File Information

File Name	File Contents
SLX_v752_Lan_HF04.zip	SLX_v752_Lan_HF04.exe
SLX_v752_Lan_HF04.exe	SalesLogix.exe

Applying the Hot Fix

Apply the hot fix to all Sage SalesLogix Client computers.

To apply

1. Close all Sage SalesLogix applications on the computer to which you are applying the hot fix.
2. Extract the contents of the **SLX_v752_Lan_HF04.zip** file to a temporary folder.
3. Navigate to the folder where you extracted the hot fix files and double-click **SLX_v752_Lan_HF04.exe**.

4. On the **SalesLogix - v7.5.2 Lan Hot Fix 04** screen, select your installation method:
 - **Install the SalesLogix Hot Fix** extracts the hot fix files to a temporary folder and removes the files once the installation is complete.
 - **Extract and Install the SalesLogix Hot Fix** extracts the hot fix files to a location you specify. The files are not removed once the installation is complete. If you choose this option, select a location where you want to store the hot fix files.
5. Click **Next**.
6. On the **Welcome** screen, click **Install**.

The Update Network Images button is available on the Welcome screen. If you created automated installations of the Sage SalesLogix Client, you can upgrade the installations to hot fix 04 using this option (you must browse to the .msi file and click Update).

Automated installations can be used to install the Sage SalesLogix Client for new users. When the automated installation is updated using this method, it contains the initial version of the Sage SalesLogix Client and all service packs and hot fixes applied to your system.
7. On the **Completed** screen, click **Finish**.
